Rack Mount Zero U Enclosure, Unloaded ❯

The Rack Mount Zero U Enclosure provides an effective solution for limited rack space applications. The enclosure is mounted at the side of a mounting pole where it does not occupy any standard rack unit.

Designed to accommodate copper, fiber and multimedia modules, the enclosure supports most multimedia applications and protects the fiber bend radius in shallow enclosures where space is limited. Available in black and includes a label, a label cover and a splice protector holder to provide up to 24 fiber splicing to improve splicing point and fiber protection.

FEATURES AND ADVANTAGES

High density solution up to 24F with LC Quad adapter

Universal application for both copper and fiber, supports up to 3 port UTP/FTP RJ45 jacks

Standard 19 inch rack side mount without occupying standard rack unit position

Compatible with 1 port MTP adapter plate to support MTP-LC fanout application

Compatible with any 6-PAK plate. Universal foot print to support all existing plates

Compatible with LGX118 plate

Hinge between cover and base to provide easy installation and maintenance

Splice protector holder included to provide improve splicing point and fiber protection

Label and label cover included for protection in industrial environments

Rugged steel construction in powder coat black finish

Spiral binding tube protects fiber pigtails

Bending insensitivity pigtails are recommended to be used in enclosure

Wall mountable

Suitable for cabinets with width 800mm or above, min. 60mm width required on the side of cabinets
